

TProcessor

IEventStore

art::TTreePeriodicEventStore

```
classDiagram
    art::TTreePeriodicEventStore --> TProcessor
    art::TTreePeriodicEventStore --> IEventStore
```

The diagram illustrates a class hierarchy where `art::TTreePeriodicEventStore` is a base class for both `TProcessor` and `IEventStore`. This is represented by two arrows originating from the bottom box and pointing upwards to the top-left and top-right boxes respectively.
